USHST Safety Experts Will Offer 13 Workshops at Heli-Expo 2018

Members of the United States Helicopter Safety Team (www.USHST.org) will be providing their safety advice for Heli-Expo participants in Las Vegas at 13 different workshops in a wide variety of topics.

The USHST promotes safety and works to reduce accidents through a government and industry cooperative effort that has resulted in a decrease in U.S. civil helicopter accidents since the organization’s inception in 2013. During that same time period, fatal accidents also have decreased.

The full list of USHST-related workshops scheduled at Heli-Expo 2018 is the following:

- | | |
|--|---|
| ▪ FRAT: Practical Flight Risk Assessments | Feb. 27, 8:30 am, and Feb. 28, 2:15 pm |
